SMARTCHECK MOBILE
CUSTOM HOTEL GUEST APP

Liverton's Smartcheck allows hotelliers to automate the guest check-in process, and provides a feature rich loyalty platform to help grow ancillary revenue. Smartcheck allows guests to book direct, purchase discounted upsell offers, chat, check-in via mobile, and go straight to their room using mobile key all while avoiding the front desk.

PRE-ARRIVAL CHECK-IN/OUT

Allows guests to check-in/out using their mobile phone before arrival at the property.

UPSELLING

Increase guest spend by upselling rooms, hotel packages and services via the Smartcheck app.

PAYMENTS & DEPOSITS

Credit and debit card payment available within the app. Major credit card vendors and mobile payment gateways accepted.

FULL-CHAIN BOOKING ENGINE

Book any hotel within your chain from the app. Guests can search for rooms by brand, by country, city or experience.

MOBILE PHONE ROOM KEY

Standard hotel room keys are a thing of the past RFID door locks can be accessed directly using technology built in to the mobile app.

INTEGRATION

SmartCheck integrates with all leading PMS, locking, loyalty and payment providers.

CUSTOMISED BRANDING

The Smartcheck colour scheme and functionality can be customised to match your business branding guidelines.

CHAT BOT

Talk with the hotel staff using an intuitive messaging platform.

WEB/EMAIL MARKETING

Deliver the app via email to the guests, with the app being downloadable via a simple interface, or the App and Google Play store.

USED BY HOTEL CHAINS AROUND THE WORLD

LIVERTON
TECHNOLOGY GROUP

Did you know that guest satisfaction drops by 50% after waiting five minutes to check in? *

With Liverton's Smartcheck mobile guests can eliminate the check-in process altogether, processing their bookings prior to arrival on their mobile phone.

Grow revenue and loyalty via direct marketing and rich feature content

Smartcheck allows direct upsell opportunities to hoteliers, upselling rooms, local activities, events, show tickets and more. Guests can chat directly with the hotel staff via our user friendly chatbot.

No more lost keycards

Guests can check-in and open their room via an easy one button mobile door key. Smartcheck includes high security electronic authorisation for the world's most respected lock manufacturers.

Full chain booking engine

Our booking engine lets your guests search through all the brands within the chain and individual hotels within each brand. Clients can select a destination by location or even specific entertainment options and activities available.

Smartcheck provides a seamless interaction with your current PMS system. Bookings appear just as if your reception staff had checked in and checked out the guests themselves.

Smartcheck can be branded in your company logo, colours and typefaces, giving guests an even more cohesive experience.
